You haven't experienced BELIZE !**

ADVENTURE is what CAVES BRANCH specializes in ...

Sightseeing is what a lot of the others do!

THE CAVES BRANCH ESTATE

The Caves Branch Estate is our privately owned 58,000 acre estate of virtually pristine tropical forests, pine ridge mountains, shimmering waterfalls, major river ways, babbling creeks, magnificent limestone cliffs, underground rivers, crystal caves, Maya ruins .. burial mounds and ceremonial sites, deep, lush sub-tropical jungle and rainforest, filled with over 160 varieties of orchids, bromeliads, and air ferns, various species of palm, ceiba and guanacaste trees and 6 different Blue Holes.

Tropical hardwoods flourish and the majestic mahogany can still be seen towering throughout Caves Branch. Wildlife at Caves Branch is just as vitally rich as the main character on stage is still the magnificent jaguar. Other local inhabitants are howler and spider monkeys, tapir, gibnut, warrie, peccary, white tailed deer, armadillo, ocelot, tarantulas, scorpions and dozens of different frogs, toads and iguana .. just to mention a few! Caves Branch is considered to be in the top 3 locations in the country for birding.

THE CAVES BRANCH JUNGLE LODGE

The Caves Branch Jungle Lodge is centered on the Caves Branch Estate in the heart of the Belizean jungle ... overlooking the pristine turquoise waters of the Caves Branch River and nestled below a 100 foot rainforest canopy.

We are not sanitized from the jungle .. we are a part of it. Wildlife surrounds us. Our various cabana styles are thatched in the tradition of the Maya and are completely screened offering a comfortable and bug free environment yet wide open to the symphony of nature. With our torches burning throughout the night, casting an eerie glow through the jungle, the babbling river and the cacophony of night creatures, you settle in for a good night's sleep but are roused early to the sounds of the jungle coming to life.

We consider ourselves an **INCREDIBLY UNIQUE EXPERIENCE.**

On any given morning, avid bird watchers can identify as many as 165 species of birds along our 1 km entranceway, which passes through 3 distinctive bird habitats. Butterflies and dragonflies fill the canopy during the day and after dark, the sounds of the night come alive.

The Caves Branch Jungle Lodge provides an array of accommodations from camping, bunkhouse and jungle cabanas to jungle suites and bungalows. While maintaining our original objective of each traveler experiencing the rugged beauty and natural symphony of the nature that surrounds us, we have provided accommodations that suit every expectation.

CAVES BRANCH ADVENTURE EXPEDITIONS

Ian was the first to create open expeditions into the underworld realm of the ancient Maya ... the Caves and the Caverns of Xibalba ... and is today, Belize's foremost explorer of those ancient sacred sites. Through continuous explorations, new discoveries are constantly being made... areas that no human has seen since the ancient Maya priests and Shaman performed their most sacred ceremonies to the Gods, almost 2,000 years ago. Some of these new discoveries are shared with our guests each year.

All of our expeditions have been designed not only to create the utmost in adventure but also to give each traveler a once in a lifetime experience of the natural, historical and cultural wonders within the world of the ancient Maya; the tropical jungle, the caves and caverns, the rivers, the lost Maya ruins, burial sites and ceremonial centers, the indigenous wildlife and the mysticism that surrounds it all.

While supporting the efforts of the Department of Archaeology of Belize, by providing highly trained guides to ensure that we maintain the natural and historical integrity of these most sacred areas, We also strive to create expeditions that not only provide the utmost in adventure, but also to educate travelers to Belize and our pristine resources; the tropical forest, its wildlife, the great ancient Maya Civilization and its most sacred ceremonial centers ... Xibalba!.. "The KINGDOM of the ancient Gods". Our efforts to preserve and maintain the natural and historical integrity of these sites is unprecedented.

Whether you are an individual traveler, an organization, researchers or student groups, We now invite you to join us on some of the most adventurous and conscience altering expeditions that few will ever have the opportunity to experience. All expeditions take place on our private estate. We are the only company that operates in Caves Branch. We are Caves Branch!

CAVES BRANCH GUIDES

Ian Anderson, Belize's premier explorer into Xibalba (the Maya Underworld), has hand picked and trained each of the local guides that lead you into the world of a civilization lost. Each guide has received intensive training in cave and wilderness rescue evacuation / wilderness first aid and all are founding members of the "Belize Disaster and Rescue Response Team", created by Ian in 1994. Each guide must be re-certified TWICE each year in Wilderness and Cave Rescue and Wilderness First Responder Medics. All senior guides are adjunct instructors with the "Belize Institute of Wilderness and Tropical Medicine, Search and Rescue". This is mandated by Ian Anderson. "I personally and professionally feel that Caves Branch has the best trained guides in safety / rescue, medical training and Cave / Wilderness guiding in

the entire country, bar none, and they have repeatedly proven them selves in rescue, medical and relief assistance on numerous occasions during National disasters” says Anderson. He continues.. “When participating in High Adventure activities, you should always consider the qualifications of your guides ... We absolutely have the best!” In 2005, Walter Santos, a senior Master Guide at Caves Branch Jungle Lodge, was selected to be a member on the medical support team to escort an international scientific team to K2 in the Himalayas. K2 is the second highest and most dangerous mountain in the World. Walter Santos is an example of the quality of Caves Branch guides.

THE “RIVER OF CAVES” TUBE FLOAT

This is where it all started! Ian Anderson’s first and still Belize’s longest and most spectacular “River of Caves” cave tubing float... over 7 miles underground. Enter the exciting world of rivers disappearing into the underworld as you float on inner tubes with only your headlamp to light your way, floating past side windows that filter the jungle light through the mist as you swirl around stalagmites jutting from the river and stalactites looming from above. Float past underground waterfalls then into the crystal cathedral, a spiritual center to the ancient Maya. Since Ian introduced Cave Tubing to Belize tourism, Cave Tubing has become Belize’s most popular adventure trip. The original and full 7 mile "River of Caves" tube float is only available through the Caves Branch Adventure Co. Some underground hiking and jungle trekking is necessary. Only available from July through February but subject to cancellation from time to time due to seasonal high water.

RIVER CAVE EXPEDITION

More underground rivers... This time combine cave tubing and cave exploration to explore this incredible river cave system where ancient Maya Ceremonial centers, pottery, artifacts, altars, obsidian blood letting blades, jade and the actual footprints of the Shaman and priests dated to 400 A.D. are still seen. Spectacular crystal formations over 5,000,000 years old cast eerie shadows into the black abyss as you explore and experience the most sacred area of the ancient Maya, a living museum where the past can still be experienced in its historical and natural location. Massive cathedral size chambers with walls of river sculptured rock dwarf explorers as we pass on foot and inner tube. Imagine the experience as we float through a cathedral and you turn off our lights ... leaving you with the sensation of floating in timelessness. This river cave expedition trip has proven to be the most popular of all Cave Branch trips.

Daily departures year round... subject to high water levels during the rainy season.

Minimum 2. Maximum 8. \$85.00 per person.

WATERFALL CAVE EXPEDITION

Waterfalls... waterfalls... and more waterfalls. Hundreds of feet under the limestone mountain ridge above, explore this river cave with a total of six waterfalls that must be challenged and conquered before days end. No cave tubing today. Spectacular crystal formations loom above and ancient Maya ceremonial centers are hidden in side chambers as you explore this mist shrouded kingdom. At the end of the day, a three kilometer hike through the forest where a driver will be waiting to bring you back to the lodge. This expedition has a very high difficulty level and all participants must be fit and agile.

Daily departures year round... subject to high water levels during the rainy season.

Minimum 2. Maximum 6. \$90.00 per person.

LOST WORLD CAVE EXPEDITION

If You Dare...enter into the world which was believed by ancient Mayan priests to be the "ENTRANCES TO THE UNDERWORLD".. the Realm .. the Domain .. **The Kingdom of their Gods .. XIBALBA**. Fighting the forces of the spirits left from a civilization lost, walk the actual steps that Mayan Shaman walked as they entered... Xibalba. Feel the presence of the ancient Gods as we explore spectacular and awe filled crystal chambers that hold 2,000 year old Maya ceremonial centers. Fire pits, charcoal and ash, pottery, bowls, relics, alters, wall carvings, glyph writings and actual skeletal remains of sacrificial victims are found in various ceremonial caves. These caves are dry caves.

Daily departures year round, not subject to seasonal rains.

Minimum 2. Maximum 8. \$85.00 per person.

THE BLACK HOLE DROP

Its now tried and tested and the results .. **SPECTACULAR, INCREDIBLE, A RUSH LIKE NO OTHER !!!**

The "Mother of all Caves" .. Actun Loch Tunich ! This expedition starts off with a vigorous hike into the foothills of the Maya Mountains. The edge of the Actun Loch Tunich sink hole sits over 300 feet above the basin below, 200 feet above the rainforest canopy that grows out from the sink hole basin. Our fully trained caving guides then rig a system of rappelling ropes for your decent to the basin below. The first 10 feet provides the adrenaline, the next 200 feet provides an unforgettable experience and sights to behold, and the last 100 feet takes you down into and through the rainforest canopy. But before you start it all... you might just throw up! The sink hole is not actually black, but you can't see the bottom from where you start. Once you're at the bottom, the question is... How do we get you out??? Then a return hike out of the foothills and a well deserved cold beer at camp. There is the Actun Loch Tunich river cave... but no cave tubing. This expedition is not for the faint of heart and all participants must be relatively fit.

Daily departures year round, not subject to seasonal rains.

Minimum 2, Maximum 8 persons. \$105.00 per person

OVERNIGHT CAVING EXPEDITIONS .. 2 days / 1 night

Start off on day one with the Black Hole drop. Once you are in the basin of the sink hole, your guides then lead you into the incredible rim stone dam entrance of the Actun Loch Tunich river cave system.

Camp is set up inside the entrance and dinner prepared. Then on to exploring the upper crystal chambers, ceremonial sites of the ancient Maya. With the campfire ablaze, you settle into a rest filled sleep as the sounds of the jungle eerily sift into the darkness of the cave and the mists of "Chac", the Mayan rain god, rise from the darkness below. The next morning, after a hardy breakfast, you trek down another 400 feet along cave cliff walls on routes of the ancient Maya to the Actun Loch Tunich underground river, with over 24 kilometers of mapped passageways, exploring in the steps of the ancient Maya, past bubbling springs and an underground waterfall. At the end of the second day, the problem still exists ... how do we get you out ? Regardless, we will still have a cold beer waiting for you back at the Lodge!

A NOTE FROM IAN:

“Ninety per cent of all our guests have never had either high adventure, caving nor jungle experience before coming to Caves Branch. We have taken children from the age of 6 years to seniors at the age of 76 years many of our expeditions but have on numerous occasions, refused participation to 20, 30 and 40 year olds. Age is not “necessarily” a deciding factor on our expeditions, however, a degree of fitness and most importantly, your sense of adventure is what will be the deciding factor.

From time to time, weather conditions will cause us to cancel or alter expeditions whose activities are subject to drastic changes in water levels. Safety is our highest priority and all decisions to cancel or alter activities due to potential weather changes are decisive and final.

All of the Caves Branch guides are re-certified each year in Cave and Wilderness Rescue and Wilderness First Responder Medic First Aid and are all founding members of the Belize Cave and Wilderness Rescue Team, created and solely sponsored by Caves Branch. Caves Branch, along with our medical director, Dr. Keith Brown and our rescue director, Mr. Bruce Hagen, has also created and sponsored the “Belize Institute of Wilderness and Tropical Medicine” as well as created, developed and solely sponsored the National Rescue organization, the “Belize Disaster and Rescue Response Team”. Every expedition that leaves Caves Branch has a back up to support the possibility of a potential injury. Each expedition is monitored by radio to within an hour of returning to base.

When planning Caving or Jungle expeditions in Belize, please ensure that you are with fully trained “caving / wilderness guides”. Ask for proof that they are fully certified in Cave and Wilderness Rescue and Wilderness First Responder Medic certification. Your life is in their hands.

What is your life worth?
